

LANCASTER COUNTY KITCHENS

by Kountry Kraft, Inc.

HICKORY WOOD WARRANTY DISCLAIMER AND RELEASE

The appeal of Lancaster County Kitchens cabinetry made from hickory comes from the beauty of the wood.

The hickory used to build Lancaster County Kitchens cabinetry will vary in color from shades of off-white to gray to dark brown in areas. Unlimited mineral streaks, where the wood has absorbed minerals from the soil, and small peck marks are normal. Grain patterns and texture will vary from "even" to "relatively wild". The color of the wood used to build the door frames may vary from the color of the wood in the door panels, cabinet frames and sides, but it will be similar. The variations in the wood will be visible when cabinets are finished natural or with a colored stain. These variations are considered normal, natural characteristics inherent in the wood.

These variations in the wood will appear throughout all of the cabinets. They will occur on adjacent cabinets, fronts and finished sides, between pairs of doors and/or drawers on the same cabinet, or even within the same panel. The effect of such variations in an entire room will most likely be quite different from what is shown on a small display or a finish sample.

By signing this Waiver, I/we acknowledge that the variations inherent in hickory wood have been explained to me/us, and I/we understand that Kountry Kraft, Inc. cannot guarantee the appearance or the uniformity of the hickory wood used to build my/our Lancaster County Kitchens cabinetry.

My/our signature(s) on this form release Kountry Kraft, Inc. from any liability for any claims based on inconsistency in appearance or uniformity of hickory wood determined by Kountry Kraft, Inc. to be the result of the natural appearance of the wood. This Disclaimer and Release applies to any claims under the Lancaster County Kitchens One-Year Limited Warranty or any other theory of liability, whether based on contract or tort.

NATURAL AND TRANSLUCENT FINISH RELEASE

The appeal of Lancaster County Kitchens cabinetry finished with a natural or translucent finish comes from the beauty of the wood itself. The select solid hardwood and hardwood veneers used to construct Lancaster County Kitchens cabinetry vary in color from shades of white, red, black and even green in areas. Mineral streaks, where the wood has absorbed minerals from the soil during the years of growth, are often present in the very finest hardwoods. Grain patterns and texture will vary from "even" to "relatively wild."

These variations in the wood will appear throughout the cabinetry. They will occur on adjacent cabinets, between pairs of doors and/or drawers on the same cabinet, or even within the same panel. The effect of these variations in an entire room may be different from what is shown on a small display or sample. Purchasers of Lancaster County Kitchens cabinets with a natural or translucent finish should be made aware of these characteristics.

By signing this Release, the undersigned releases Kountry Kraft, Inc. from any claims under the Lancaster County Kitchens One-Year Limited Warranty or any other theory of liability based on such variations.
